FEATURES & BENEFITS

Easy-to-use push button controls let you easily control fan speed and lighting

LED lighting illuminates the cooktop beneath the hood

4-Speed fan control (120/240/320/400 CFM) to choose the appropriate air flow for your cooking situation

Designed to fit standard (circular) ductwork for simple installation

400 CFM air flow (highest speed setting) efficiently exhausts large amounts of air away from your cooking area

Please note the position of a grill lid can block the range hood filters and decrease range hood performance. We recommend moving the range hood to accommodate your grill lid or ensure range hood depth will surpass the size of the grill and mounted 38-42 inches above the grill.
