Signature Features

Zero clearance fit

Get a built-in look with zero clearance fit. Our specially designed hinges allow the fridge doors to open in tight spaces, without needing extra clearance.*

Food Showcase Door

Easily organize and find your favorite foods and drinks with the Food Showcase Door.

Dual Auto Ice Maker with Sphere Ice

Chill your drinks with cubed ice or Sphere Ice. Sphere Ice is slow-melting, keep your drinks colder for longer.*

AI Energy Mode with SmartThings

SmartThings Energy lets you monitor and manage your refrigerator's power usage. Reduce your energy use by up to 10%[1] with AI Energy mode,[2] all from your phone.[3]

[1] Comparing factory setting temperature without AI Energy mode and with AI Energy Mode, which optimizes the compressor speed and defrost cycle based on usage pattern and conditions. Results may vary depending on the usage pattern and conditions.

Installation Specifications

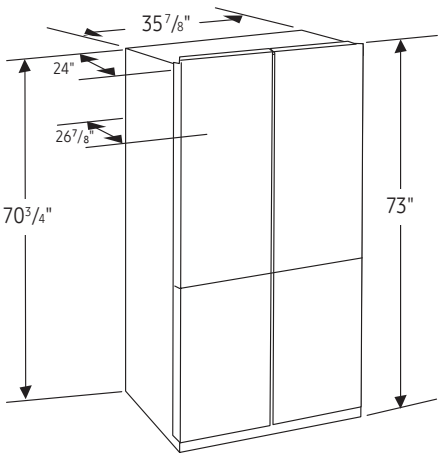

1. Measure the height, width and depth of the opening, making sure to include baseboards, molding tile, countertop overhang, etc. Check to be sure there is enough room to open the door (consider walls, islands or other obstacles when measuring).
2. Refer to illustrations below to determine dimensions.
3. Allow 5/32" (4mm) of clearance on hinge side of refrigerator when installing next to a wall.
4. Allow 2" minimum clearance at rear for proper air circulation and water/electrical connections.
5. Allow a 0.79" (20mm) clearance at the top for ease of installation.
6. Ensure each door and entryway in the home is wide enough for the refrigerator to be moved through easily.

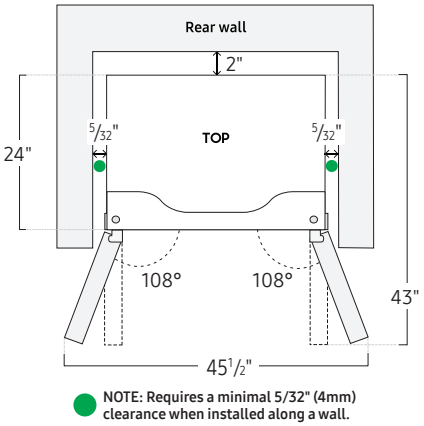

For optimal usage and ability to open refrigerator doors completely, do not install next to a wall.

Please note: The following dimensions and cutout information is for planning purposes only. For complete installation details, consult manual packed with product or download manual online at samsung.com.
