JVW5361SJ/EJ/BJ/FJ

GE® 36" Wall-Mount Pyramid Chimney Hood

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

INSTALLATION INFORMATION:

Before installing, consult Use & Care/installation instructions packed with product for current dimensional data.

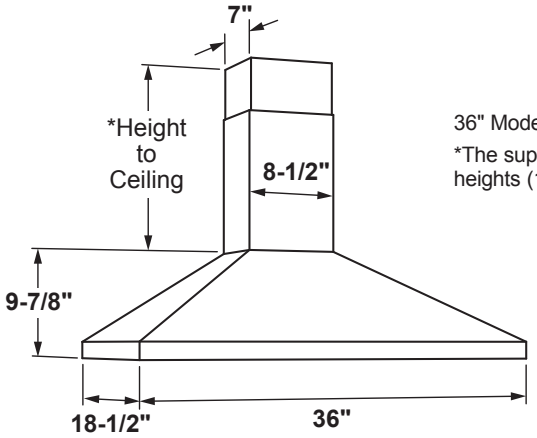

OPTIONAL ACCESSORIES

UXDC72SJSS/FJDS/BJTS – 9(ft.) Ceiling Duct Cover Kit
UXDC53SJSS/EJES/BJTS/FJDS – 10(ft.) Ceiling Duct Cover Kit

For 30" distance from counter to hood:
Below 8'-4" ceiling height – no duct cover required
8'-4" – 9'-6" ceiling height – use UXDC72SJSS/FJDS/BJTS
Above 9'-7" ceiling height – use UXDC53SJSS/EJES/BJTS/FJDS
Refer to Installation Instructions for exact specifications

UXRC70 – Remote Control

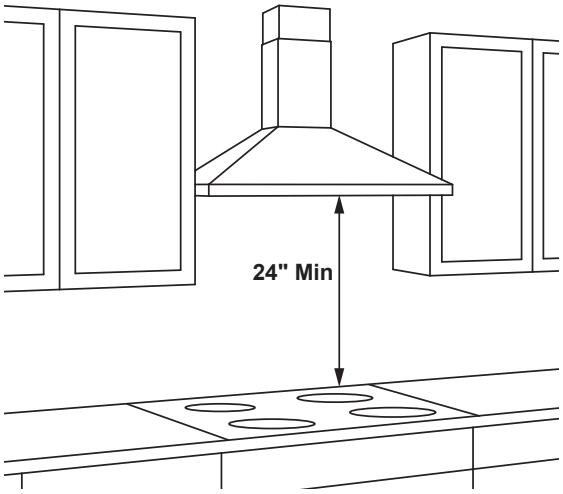

JXCF72 – Charcoal Filter
(needed if used in recirculation mode)

36" Models Require a 36"-Wide Opening

*The supplied duct cover fits 7'-4" to 9'-0" ceiling heights (10' with optional high ceiling kit UXDC53)

AMP RATING	
120V	2.5

The vent hood must be installed 24" min. above the cooking surface. For optimal performance, installing the hood more than 38" above the cooking surface is not recommended. The hood installation height above the cooking surface depends upon ceiling height. The telescopic duct cover conceals the ductwork running from the top of the hood to the ceiling.

NOTE: Installation height should be measured from the cooking surface to the lowest part of the hood. This hood may be installed onto a wall and vented to the outdoors, or it can be installed for recirculating operation. Parts for recirculating operation are supplied with the hood. However, when installed for recirculating operation, the optional charcoal Filter JXCF72 will need to be purchased separately.
