A SMART DISHWASHER FULL OF BRIGHT IDEAS

The Sharp® SDW6767HS Smart Dishwasher brings practical smart home features to a versatile and powerful dish washing experience. With six washing cycles, seven options, outstanding washing power, and an adjustable third rack, the SDW6767HS is ready to help. Just ask Alexa, "Alexa, set the dishwasher cycle to heavy duty."

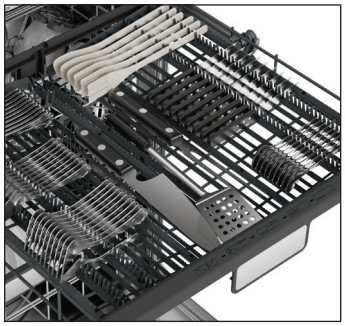

The responsive washing cycles work with smart sensors to optimize performance automatically. Place your most challenging cookware above the Power Wash sprayer for extra scrubbing power. Set the Wash Zone to clean smaller loads on either the upper or lower rack. The extended heated dry option uses a fan to efficiently circulate the air as the dishes dry.

Classic and elegant, the SDW6767HS offers luxuries inside and out with two premium interior white LED lights. The SDW6767HS Works with Alexa, so you can skip the control panel and use your Echo device to start & stop, set options, and check the status of your dishwasher in your smart home. Setup can be as simple as scanning a code with your mobile device. Alexa can help with the shopping, too! The Amazon Dash Replenishment service can help ensure that you never run out of detergent or rinse aid.

The powerful and versatile features of this premium dishwasher give you more than peace of mind. The Sharp SDW6767HS is Library Quiet at a peaceful and serene 45dBA. Balance and Harmony. Exceptional Quality. The SDW6767HS Smart Dishwasher from Sharp.

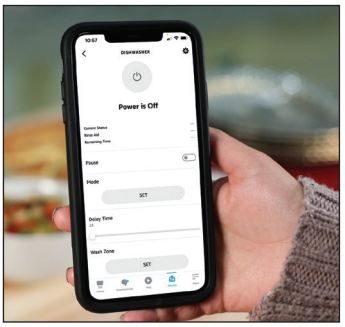

The SDW6767HS features a durable stainless steel interior and two bright white LED interior lights.

The adjustable third rack is ideal for flatware and serving instruments such as spatulas and other baking utensils.

Place your most soiled pots and pans near the third sprayer for extra scrubbing power with Power Wash.

The SDW6767HS features remote operations by Alexa voice commands with the Amazon Alexa app.
