CDT828P2VS1

CDT828P2VS1
Fingerprint Resistant
Stainless Steel with
Brushed Stainless Handle

Certified to NSF Standard 184 for sanitization

FEATURES & BENEFITS

CustomFit top rack – Load your way in this dishwasher with a customizable top rack. The sliding top rack provides loading flexibility with a place to load silverware, spatulas, ramekins, lids and more, so you can wash everything at once.

CustomFit Basket – Load more than just silverware in this redesigned basket. The stylish CustomFit Basket holds all your silverware, 9" tall delicate stemware, reusable straws and more, so items that were hand-washed before can safely be washed in the dishwasher.

Ultra Wash & Dry – This Ultra-Wash and Dry dishwasher ensures table-ready dishes. Ranging from gentle for delicate stemware to intense for pots and pans, flexible wash options ensure that dishes get full coverage and the right amount of pressure for an ideal clean.

4 bottle wash jets – This dishwasher with 4 bottle wash jets ensures a deep clean for tall items, narrow glasses, jars and more. In the upper rack, each of the jets directs water and detergent inside to effectively wash hard-to-reach areas.

Customizable dishwasher handles – Choose from six unique Café handle finishes to complement the rest of your kitchen thanks to this dishwasher with customizable hardware.

Favorites – Easily save your favorite wash and dry option combinations to the 'Favorites' button on your control panel for convenient and quick access at the touch of a button.

Adjustable middle rack – Load the dishwasher your way thanks to an adjustable middle rack. Easily move it up and down to fit bottles, large platters and other items as tall as 10.5".

Presoak – Loosen tough soils with a presoak cycle that runs before the wash cycle begins, so you can skip the need to pre-rinse or soak items by hand.

Sanitize – Enjoy piece of mind with a sanitization cycle that reduces up to 99.999% of bacteria on dishes.

Middle and lower rack fold-down tines – Two rows of adjustable tines in both the middle and lower rack allow you to load the way you want. Sixteen different tine positions offer the ultimate customization to fit all of your items.

Active Flood Protect – Active Flood Protect prevents potential overflows for greater peace of mind. It works by using a water leak detector to sense when water is too high, pumping it out until a safe level is reached.

Flush installation – Cabinet-depth flush installation ensures your dishwasher blends in with the design of your kitchen without sacrificing space for dishes inside.

Piranha™ Hard Food Disposer – The Piranha™ Hard Food Disposer lets you use your dishwasher without pre-rinsing. Its stainless steel impellers rotate to pulverize food particles and an anti-jamming design make sure wash arms stay unclogged.

42 dBA dishwasher – Enjoy a peaceful kitchen while delivering a powerful wash thanks to this super-silent 42 dBA dishwasher.
