FEATURES & BENEFITS

ZLINE Paramount Series - The ZLINE Paramount Series provides a polished look that aligns with any kitchen layout or style

Precision Dual Heat Zones - With a range as low as 800 BTUs on each inner burner to 20,000 to 25,000 BTUs on the outer burners, an exclusive dual-port design lets inner and outer rings operate separately for more efficient cooking than most leading competitors

True Simmer-to-Sear - Every DuoPro™ burner delivers the full range of heat; you can simmer a delicate sauce, sear a steak, or rapidly boil pasta—all at the same time—without worrying about which burner has the right power

Every Burner Is The Best Burner - The versatility of DuoPro™ cooktops means no more pausing to move pans around, no waiting for the "right burner" to open up, and no compromises on timing—everything is ready when you want it to be

Italian Brass Burner Craftsmanship - Hand-forged in Italy, DuoPro™ brass burners operate efficiently due to a natural oxidation process that forms a patina and deeper brass hue to protect from corrosion while withstanding high temperatures and resisting warping and deformation

Modern Cooktop - Featuring an upgraded cast iron grate configuration for a bold style and easy transferring of cookware to various burners
