24 INCH COUNTER DEPTH 11.43 cu. ft. BOTTOM FREEZER REFRIGERATOR

BRFB1045SS / BRFB1045WH

Duo-Cycle Cooling

Ingenious Blomberg refrigerators are equipped with advanced multi-cycle, no-frost, silent cooling technology. Independently zoned and controlled cooling systems maintain even air temperature and humidity in separate freezer and fresh-food compartments, delivering enhanced food preservation and maximum energy efficiency. No air transfer between compartments means food in the freezer section freezes faster, items in the refrigerator stay fresher longer, and odors don't circulate.

Freezer Storage Bins

Four separate freezer storage bins with glass shelving under bins. When a freezer storage bin is removed, a fully functional glass shelf is under the bin, providing more flexible storage options.

Interior LED Lighting

Never forget what's in the refrigerator again! Blomberg brilliantly illuminates every corner with white LED lights for better aesthetics and less energy consumption.

Reversible Door

Field reversible door makes it easier to fit the refrigerator into the kitchen design.
