ENERGY STAR certified for guaranteed savings and a greener performance

Advanced safety features include automatic shutoff, overflow protection, child lock, and residual heat indicator light

7200W of cooking power with boost functions for all elements

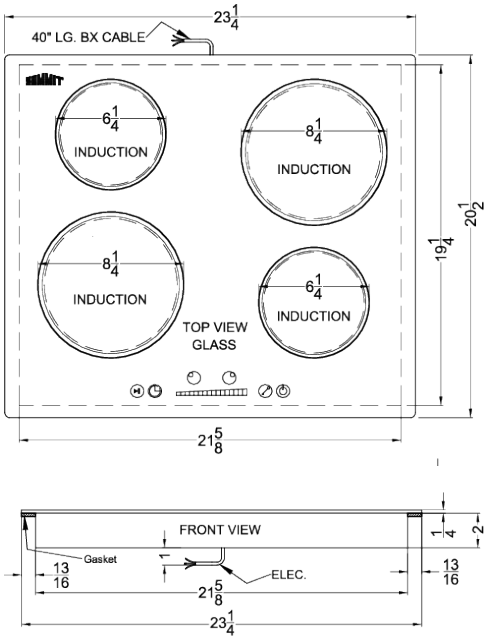

Product Features:

ENERGY STAR certified	Rated by the DOE to perform with more efficiency than federal standards require, saving your unit energy and you on higher utility costs
24" Induction Cooktop	Four cooking elements featuring magnetic heating for precise and efficient cooking
Induction heating	Electromagnetic heating technology where heat is generated inside your cookware, ensuring a more efficient process with less energy waste, faster heating, and a safer cooking experience
7200W operation	Powerful elements with fast heating to meet most stovetop cooking needs
Jet black glass surface	Elegant style on a smooth, jet blaack glass surface for a contemporary look that is easier to clean
2 large elements	8 1/4" elements in the front left and rear right operate at 2000W (with a 3000W capacity at the boost setting) for fast, powerful heating
2 standard elements	6 1/4" front right and rear left elements operate at 1500W (or 2000W using boost) to cover most general cooking needs
Smart burner layout	Largest elements are located diagonally, with maximum spacing to allow large cooking vessels in use simultaneously
Boost function	All cooking zones include a "boost" function that lets them operate at a higher setting for up to 5 minutes, ideal for reducing cooking time when boiling water
