24” 2.51 cu.ft. Free-Standing Gas Range

BGR24102SS

Key Features & Benefits

Large Oven Capacity
With the large oven capacity, you will have lots of room to fit all your dishes when you are cooking your family’s dinner.

Interior Lighting
Featuring bright interior halogen lighting for full visibility while baking, braising and roasting.

Gas Safety Valve
This range is equipped with a gas safety device that automatically cuts off the gas supply if it senses the broilder flame has been accidentally extinguished during cooking.

Auto Re-Ignition
The automatic re-ignition will automatically re-ignite an extinguished burner in case it is blown out accidentally by a draft, spill or boil-over. This will prevent build-up of gas above the cooktop and lowers the risk of gas leaks.
