SMARTHQ™ HOME

LEAK DETECT

Peace of Mind | 24/7 Notification | Long Battery Life | Bluetooth Enabled

(Sensors)

(Gateway)

Model: SPLK10N01A

FEATURES & BENEFITS

The SmartHQ™ Home leak detection kit offers whole-home convenience via proactive leak alerts. Place sensors underneath sinks, alongside toilets, or among other hazard zones to receive notifications of potential leaks or standing water through the GE Appliances SmartHQ™ Home app.

- Reduces risk of water damage with 24/7 push notifications via mobile device.
- Gateway connects up to 5 sensors, providing whole home protection.
- Easily commission to the SmartHQ™ Home app (Download on the App Store | GET IT ON Google Play).
- Flexible design allows sensors to lie flat on any surface or stand on edge for use in difficult-to-reach areas (drain pans, toilets, water heaters).
- USB-C cord included for every gateway.
- Battery type: 2 - AAA batteries per sensor (included).

Gateway Dimensions: 2.75"(l) x 2"(w) x .57"(h) | Sensor Dimensions: 2.88"(l) x 2.88"(w) x .62"(h)
