PTS7000BN/FN/SN

GE Profile™ 30" Smart Built-In Convection Single Wall Oven with Air Fry and Precision Cooking

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

NOTE: Single wall ovens are NOT approved for stacking above or below another single wall oven.

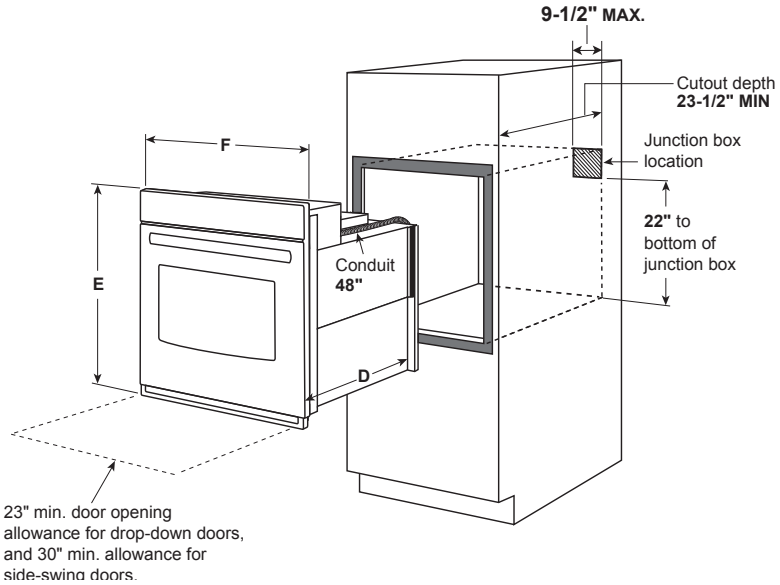

NOTE: Wall coverings, countertops and cabinets surrounding the wall oven must be able to withstand a temperature of up to 200°F (94°C).

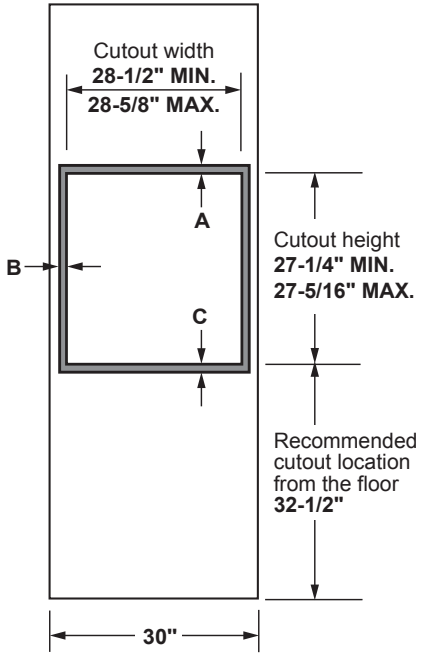

NOTE: If the cabinet in which the wall oven is installed does not have a solid bottom, two braces or runners must be installed to support the weight of the oven. The runners and braces must support up to 220 lbs (99 kg).

NOTE: Door handle protrudes 3" from door face. Cabinets and drawers on adjacent 45° and 90° walls should be placed to avoid interference with the handle.

ATTENTION INSTALLER: Electric wall ovens are NOT approved for installation with a plug and receptacle. They must be hard wired into an approved junction box.

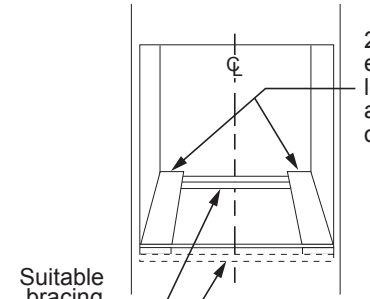

IMPORTANT: Before installing, consult installation instructions packed with product for current dimensional data.

Dimension and installation information are shown in inches.

GE Profile™ 30" Smart Built-In Convection Single Wall Oven with Air Fry and Precision Cooking

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

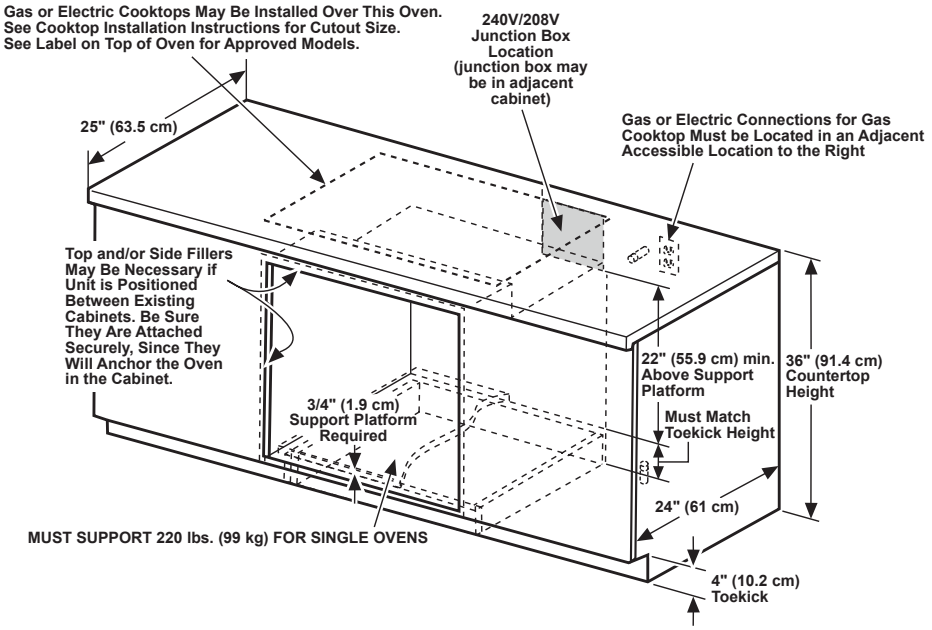

NOTE: 30" Single electric wall ovens are approved for installation below a countertop, and below certain gas and electric cooktops. Refer to the Approved Combinations Matrix available at geappliances.com for specific information.

NOTE: 30" Single electric wall ovens are approved for installation above 27" and 30" warming drawers.

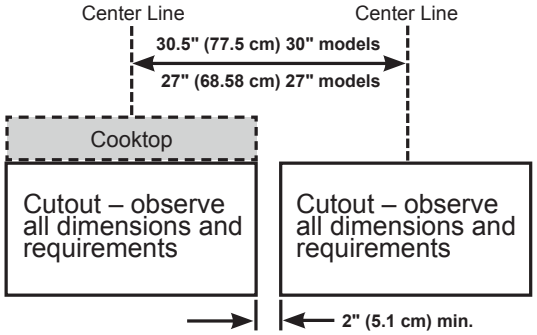

ATTENTION INSTALLER: Electric wall ovens are NOT approved for installation with a plug and receptacle. They must be hard wired into an approved junction box.

IMPORTANT: Before installing, consult installation instructions packed with ALL products for current dimensional and combination data.

UNDERCOUNTER INSTALLATION

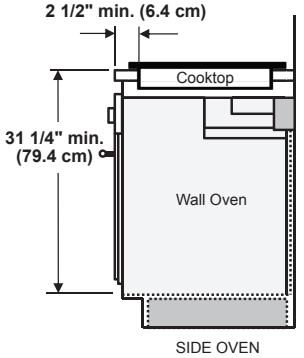

SIDE-BY-SIDE INSTALLATION (TWO OVENS IN SEPARATE CUTOUTS)

NOTE: One cooktop may be centered over either oven in the side-by-side installation.

INSTALLATION BELOW A COOKTOP

IMPORTANT: Maintain a minimum distance of **31 1/4"** from the top surface of the countertop to the wall oven platform to ensure that the cooktop and wall oven do not interfere with each other (see picture).
