GUD27EESN GUD27GESN

GE® Unitized Spacemaker® 3.9 DOE Cu. Ft. Stainless Steel Washer and 5.9 Cu. Ft. Dryer

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

ELECTRICAL REQUIREMENTS:

GUD27EESN Electric Dryer – This appliance should be connected to an individual, properly-grounded branch circuit with 120/240V or 120/208V single-phase 60 Hz electrical service and should be protected by 30-amp time-delay fuses or circuit breakers KW Rating per voltage (240/208). This appliance is manufactured with neutral connected to the frame. Power cord should be purchased separately.

GAS REQUIREMENTS:

GUD27GESN Gas Dryer – This appliance should be connected to an individual branch circuit with 120-volt single-phase 60 Hz electrical service and should be protected by 20-amp time-day fuses or circuit breakers. This appliance is equipped with a 4-foot long flexible U.S. listed 20-amp power cord to match a 20-amp receptacle.

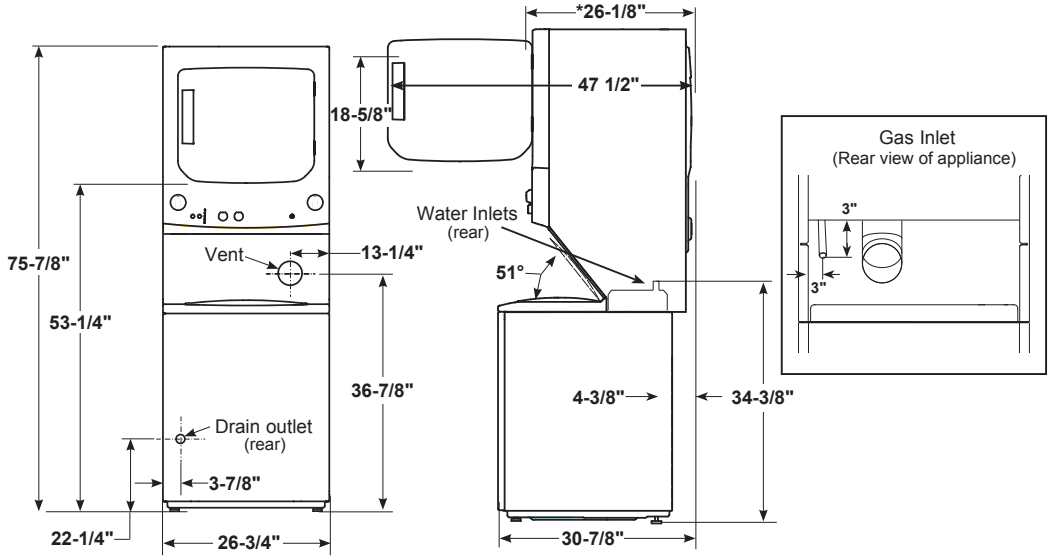

NOTE: Gas Rated input 20,000 BTU/HR. Factory equipped for natural gas. Tested for LP gas. LP gas supply requires a conversion kit. Have a qualified gas technician install a conversion kit before use.

Dryers must be exhausted to the outside.

INSTALLATION INFORMATION: For complete information, see installation instructions packed with the product.

Installation Instructions

27" NOMINAL PRODUCT DIMENSIONS

**** Dimension represents door closed including handle and knobs.***
NOTE:*With feet set at mid position, feet can be adjusted +/- 3/8".*

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

For complete information, see installation instructions packed with your dryer.

DUCTING MATERIALS:

For best performance, this dryer should be vented with 4" diameter all rigid metal exhaust duct. If rigid metal duct cannot be used, then UL-listed flexible metal (semi-rigid) ducting can be used (Kit WX08X10077). In special installations, it may be necessary to connect the dryer to the house vent using a flexible metal (foil-type) duct. A UL-listed flexible metal (foil-type) duct may be used ONLY in installations where rigid metal or flexible metal (semi-rigid) ducting cannot be used AND where a 4" diameter can be maintained throughout the entire length of the transition duct. Please see installation instruction packed with your dryer for complete instructions when using flexible metal (foil type) ducting.

EXHAUST LENGTH CALCULATION:

1. Determine the number of 90° turns needed for your installation. If you exhaust to the side or bottom of dryer, add one turn.
2. The maximum length of 4" rigid (aluminum or galvanized) duct which can be tolerated is shown in the table.

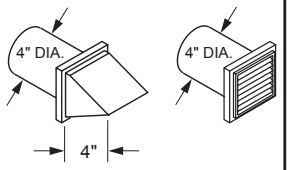

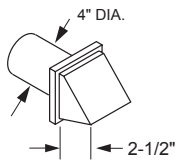

For every extra 90° elbow, reduce the allowable vent system length by 10 ft. Two 45° elbows will be treated like one 90° elbow. For the side exhaust installations, add one 90° elbow to the chart. The total vent system length includes all the straight portions and elbows of the system (transition duct included)..

Dryers must be exhausted to the outside.

CAUTION: For personal safety do not terminate exhaust into a chimney, under any enclosed house floor (crawl space), or into an attic, since the accumulated lint could create a fire hazard or moisture could cause damage. Never terminate the exhaust into a common duct or plenum with a kitchen exhaust, since the combination of lint and grease could create a fire hazard.

Exhaust ducts should be terminated in a dampered wall cap to prevent back drafts, bird nesting, etc. The wall cap must also be located at least 12" above the ground or any other obstruction with the opening pointed down.

GUD27 DRYER EXHAUST LENGTH

	RECOMMENDED MAXIMUM LENGTH	
	Exhaust Hood Types	
	Recommended	Use only for short run installations
		
No. of 90° Elbows	Rigid Metal	Rigid Metal
0	56 Feet	42 Feet
1	48 Feet	34 Feet
2	40 Feet	26 Feet
3	32 Feet	18 Feet

DIMENSIONS AND INSTALLATION INFORMATION (IN INCHES)

Special Installation Requirements

ALCOVE OR CLOSET INSTALLATION:

- If your dryer is approved for installation in an alcove or closet, it will be stated on a label on the dryer back.
- The dryer MUST be exhausted to the outside.
- Minimum clearances between dryer cabinet and adjacent walls or other surfaces are: 0" both sides and rear, 1" front and top
- Minimum vertical space from floor to overhead cabinets, ceilings, etc. is 76-1/2".
- Closet doors must be louvered or otherwise ventilated and must contain a minimum of 60 sq. in. of open area equally distributed. If this closet contains both a washer and a dryer, doors must contain a minimum of 120 sq. in. of open area equally distributed.
- No other fuel-burning appliance shall be installed in the same close with a gas dryer.

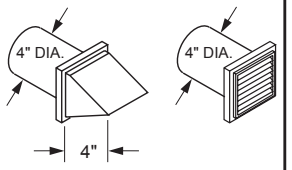

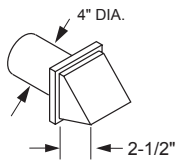

BATHROOM OR BEDROOM INSTALLATION:

- The dryer MUST be exhausted to the outdoors.
- The installation must conform with the local codes, or in the absence of local codes, with the National Electric Code and National Fuel Gas Code, ANSI Z223 for gas dryers.

MINIMUM CLEARANCES OTHER THAN ALCOVE OR CLOSET INSTALLATION:

- Minimum clearances to combustible surfaces:
  0" both sides and rear
  1" front and top

FEATURES AND BENEFITS

PreciseFill Technology – Take the guesswork out of choosing the right water level with PreciseFill, which auto-senses the size of the load to add just the right amount of water for maximum cleaning performance.

Deep Rinse – Ensure clothes are rinsed free of detergent, fabric softener and stubborn soils.

11 Wash Cycles – Choose from 11 wash cycles that accommodate every load type.

6 Water Temperatures – Pick the water temperature you prefer and wash your way.

ENERGY STAR® qualified – Meets or exceeds federal guidelines for energy efficiency for year-round energy and money savings

WiFi Capable – Monitor performance and check cycle status of your washer and dryer using your mobile device.* *Required ConnectPlus accessory part number PVX10W00Y0 sold separately

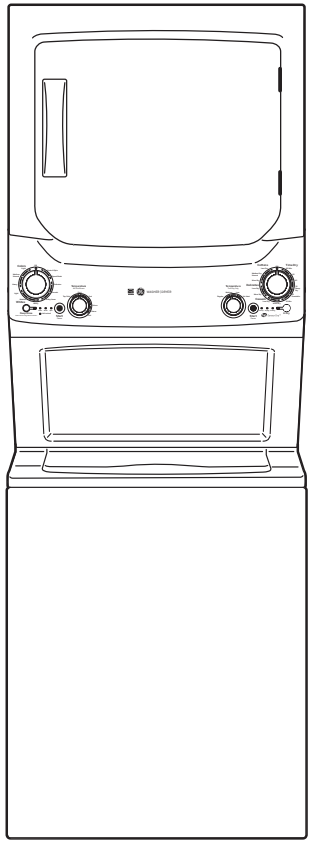

Efficient Infusor – Optimize energy efficiency without sacrificing wash performance

Cycle Status Lights – Easily track your wash and dry cycles with lights that indicate the status with just a glance

End of Cycle Chime – Conveniently know when a cycle is complete with an audible alert

Model GUD27EESNWW – White on white (Electric)

Model GUD27GESNWW – White on white (Gas)
