Key Features & Benefits

Deep-Water Wash System
The wash system is optimized with deep-water wash and rinse cycles and vigorous cleaning action. Additionally, items can be added to the load at any time during wash, fill, and rinse portions of cycle—simply by lifting the lid.

Traditional Flex-Vane Agitator
The flex-vane agitator uses four unique patterns to deliver traditional top-load wash performance through exceptional rollover, for even very large loads.

1/2-HP Motor
The 1/2-HP motor alternates between short and long strokes to deliver quality cleaning performance for loads of all sizes.

NOTE: Dimensions are for planning purposes only. For complete details, see Installation Instructions packed with product. Specifications subject to change without notice.
