GE® 27" Built-In Double Electric Convection Wall Oven

Dimensions And Installation Information

Note: Wall coverings, countertops and cabinets surrounding the wall oven must be able to withstand a temperature of up to 200°F (94°C).

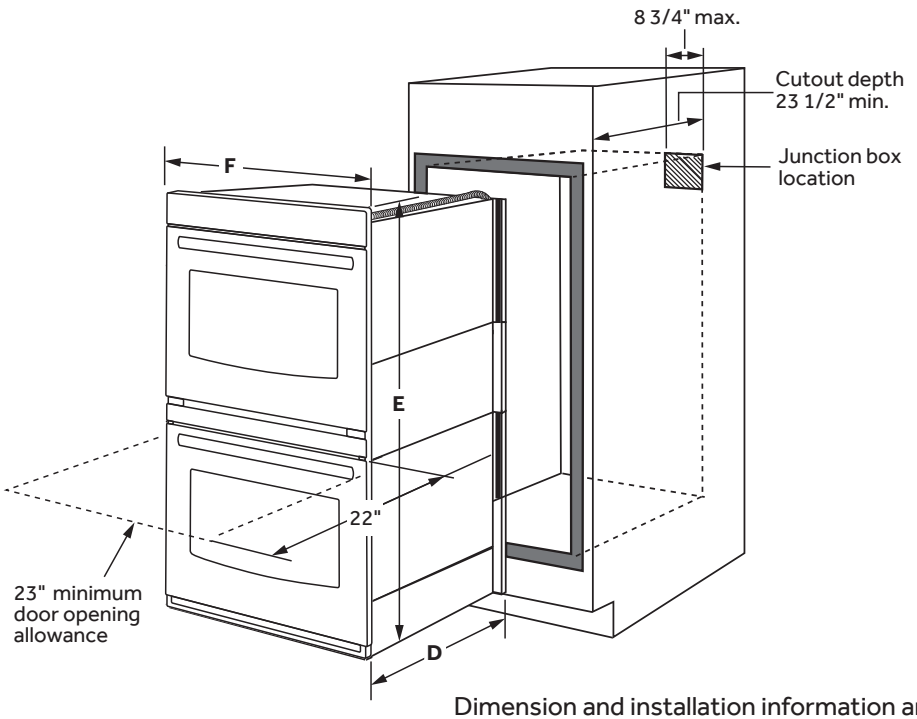

Note: If the cabinet in which the wall oven is installed does not have a solid bottom, two braces or runners must be installed to support the weight of the oven. The runners and braces must support up to 400 lbs (181 kg).

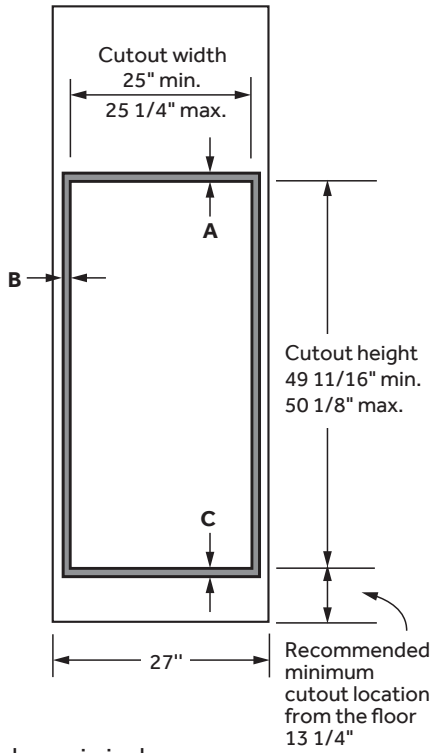

Note: Door handle protrudes 3" from door face. Cabinets and drawers on adjacent 45° and 90° walls should be placed to avoid interference with the handle.

Attention Installer: Electric wall ovens are NOT approved for installation with a plug and receptacle. They must be hardwired into an approved junction box.

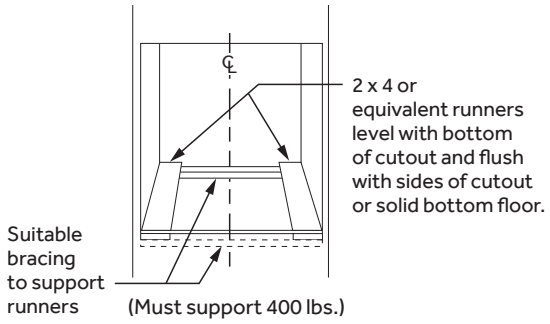

Important: Before installing, consult installation instructions packed with product for current dimensional data.
