GGF500PV

GE® 500 Series 30" Free-Standing Gas Range

Dimensions and Installation Information (in inches)

Provide adequate clearances between the range and adjacent combustible surfaces. These dimensions must be met for safe use of your range.

Allow 30" (76.2 cm) minimum clearance between burners and bottom of unprotected wood or metal cabinet, or allow a 24" (61 cm) minimum when bottom of wood or metal cabinet is protected by no less than 1/4" (6.4 mm) thick flame-retardant millboard covered with no less than No. 28 MSG sheet metal (.015" [.38 mm] thick), .015" (.38 mm) thick stainless steel, .025" (0.64 mm) aluminum or .020" (0.5 mm) copper.

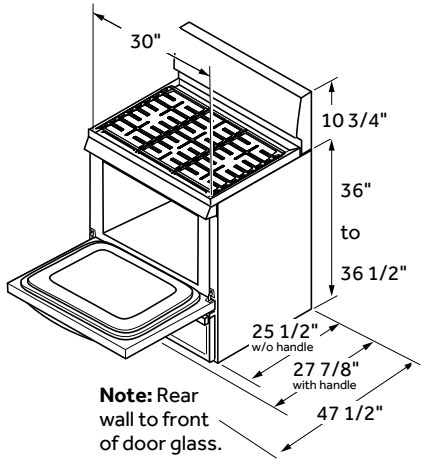

Installation of a listed microwave oven or cooking appliance over the cooktop shall conform to the installation instructions packed with that appliance.

For island installation, maintain 2-1/2" minimum from cutout to back edge of countertop and 3" minimum from cutout to side edges of countertop.

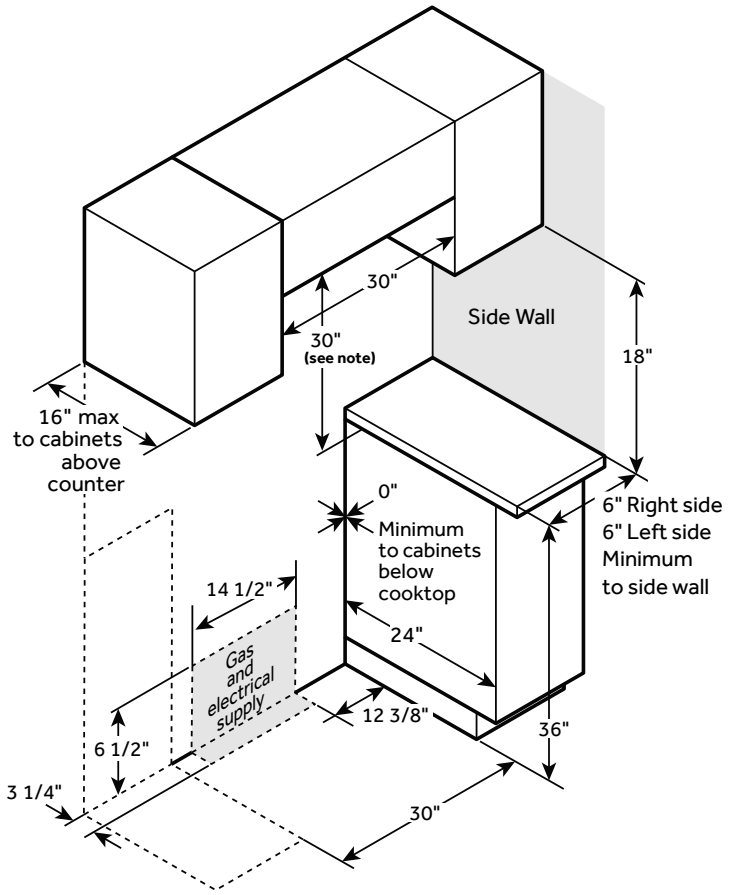

Before installing, consult installation instructions for current dimensional data and additional requirements.

Electrical Rating: 120V, 60Hz, 13A

Breaker Size: 15A

Note: Rear wall to front of door glass.

Note: Minimum to bare cabinet above; see Installation Instructions for alternate installation configurations.
